

WSU Educational Psychology Program

Fall 2018 Virtual Visit

Our program equips students with the knowledge of learning theories and strong methodological, evaluation and assessment skills to conduct research on diverse issues relevant to education and beyond. The Educational Psychology faculty are committed to mentoring graduate students to develop their own body of research, publish in top-tier journals, present at conferences and gain career-related skills.

The Virtual Visit provides a unique opportunity for prospective students to learn more about our M.A. and PhD programs. In this online video conference, faculty will provide a brief overview of their research interests and current students will provide a candid account of their experiences in the program. In addition, prospective students will have an opportunities to ask questions about the program as well as basic questions related to choosing a graduate program.

Date & Time

November 9th, 2018
9:00 - 10:00 AM PST

Sola Adesope, PhD

Kira Carbonneau, PhD

Shenghai Dai, PhD
